Organizational Climate Studies and Other Evaluation Strategies: Experience from NSF's Advanced Cyberinfrastructure Projects

Lizanne DeStefano, Georgia Institute of Technology

Lorna Rivera, University of Illinois at Urbana-Champaign

XSEDE

Extreme Science and Engineering
Discovery Environment

Three Evaluation Strategies

- Climate Study
- Dashboard Display of KPIs and area metrics
- Logic Models

April 2, 2018

Annual Climate Study

Lizanne DeStefano, Georgia Institute of Technology

Lorna Rivera, University of Illinois at Urbana-Champaign

XSEDE

Extreme Science and Engineering
Discovery Environment

Purpose of the Climate Study

Support XSEDE's organizational health by providing data over time to:

- Better understand current working conditions
- Recognize successes and areas of concern
- Develop responses to improve working conditions
- Improve workplace efficiency and satisfaction

Method

- Annual on-line Survey to all XSEDE staff and leadership
 - Core items
 - XSEDE specific items
 - May/June administration
- Disaggregation by Level 2, 3, site, FTE, length of employment
 - Special requests by L2 and L3 managers
- EXTENSIVE dissemination and interaction around results
- Documentation of XSEDE response to results
 - Quarterly Meetings

Six Climate Indices

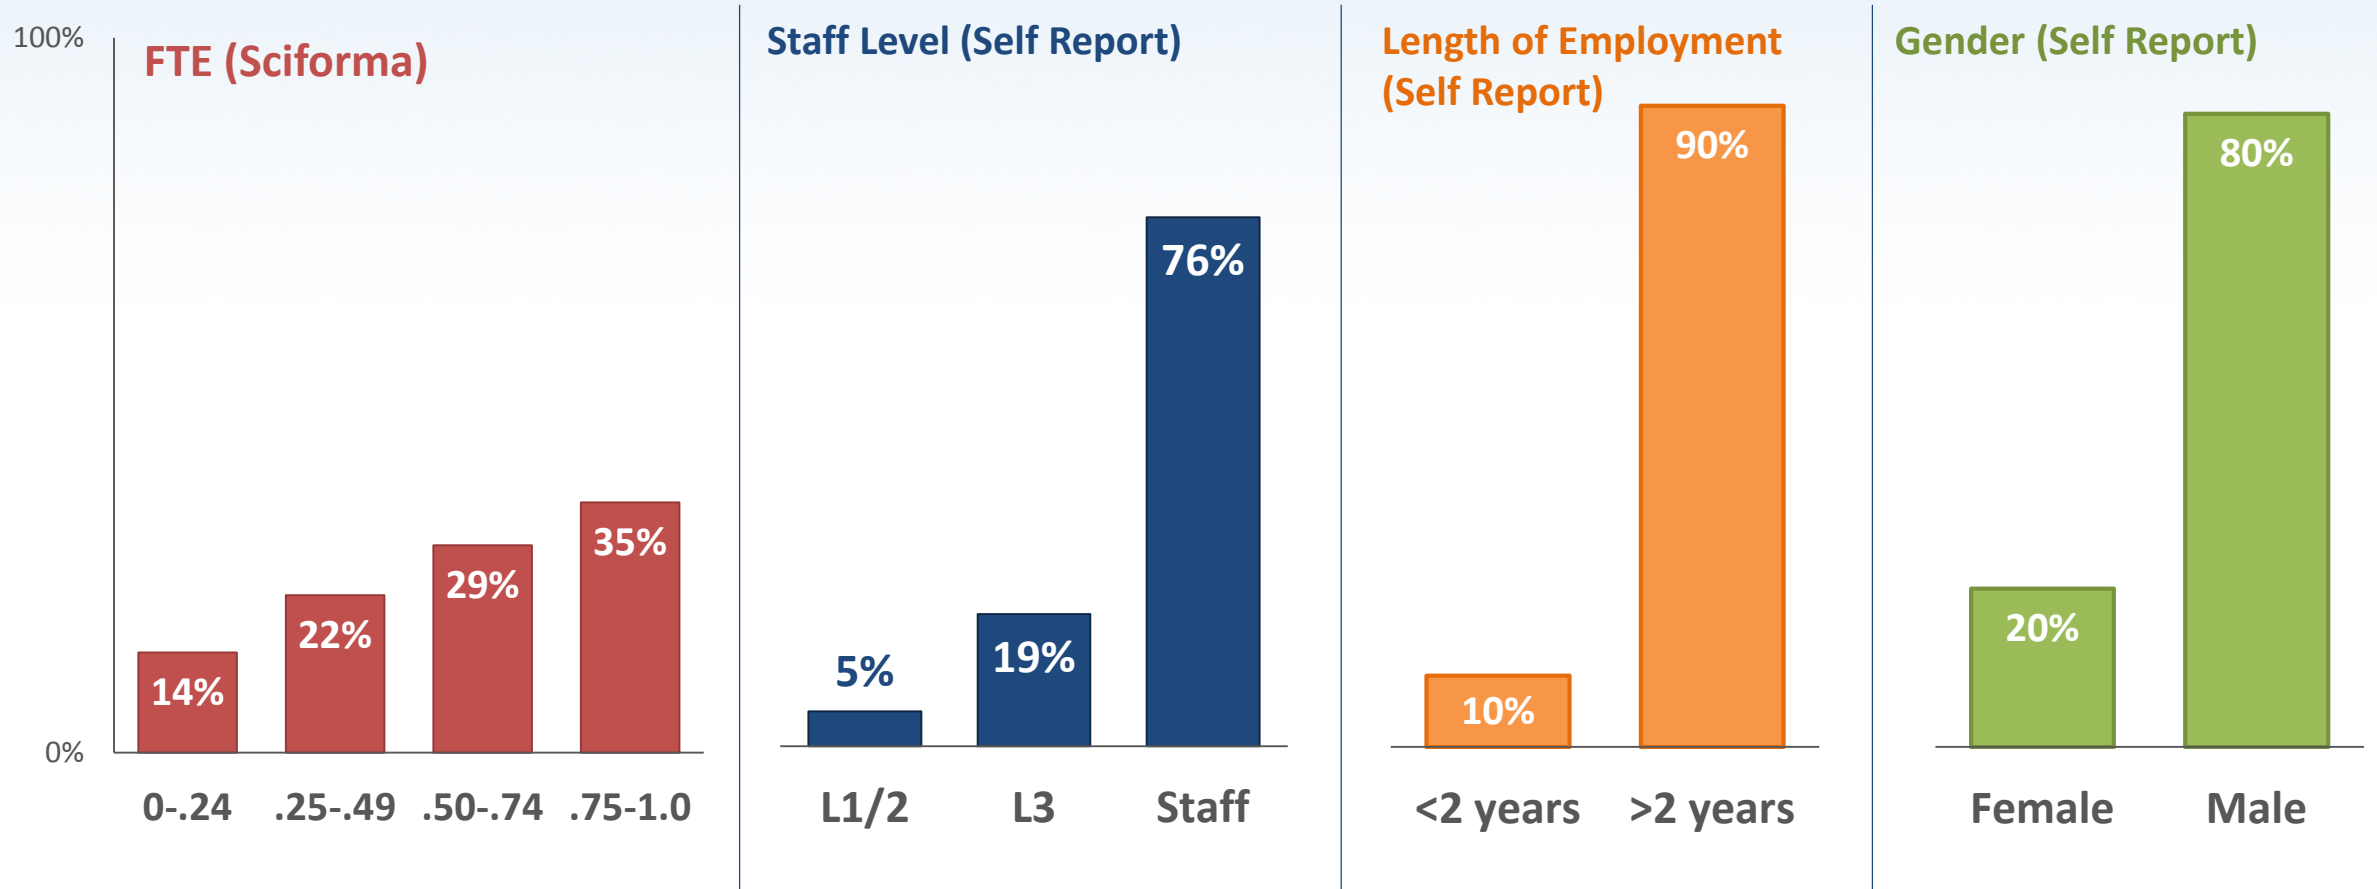

- Responsiveness
- Leadership
- Communication Tools
- Values and Satisfaction
- Communication and Decision-making
- Resources and Support
- Equity

Index Scores Over Time (Scale 1 – 5)

2015 Respondent Demographics

2015 Respondent Demographics Continued

Racial/ethnic diversity: Note that totals may not equal 100% since respondents could select more than one category.

2013 Recommendation: Promote staff directory on main XSEDE staff wiki page. Consider adopting a universal online document storage and collaboration solution.

2014-2015 XSEDE Response: Complete reorganization of wiki. Retirement and replacement of Sciforma in XSEDE2.0. Expansion of Communication Tools dimension in 2015 Climate Study.

Climate Study Results

Survey Item	Mean 2013	Mean 2014	Mean 2015
Q1A. The XSEDE staff wiki helps me find information across the project.	-	3.26*	3.58**
Q1C. The XSEDE staff wiki contains information that is useful to me and my work.	-	-	3.82
Q1E. The XSEDE staff wiki helps me to communicate effectively with other XSEDE staff.	3.04	2.99	3.18

“The wiki reorganization has helped me find things outside my level 3 WBS area”

“...It would also help to expand the use of good collaborative tools to a more complete integrated tool suite, e.g., integrated wiki/issue system/source control/code review system.

Scale: Strongly Disagree (1) to Strongly Agree (5)

* $p < .05$, ** $p < .01$, *** $p < .001$

Range of comparable projects 2.83 to 3.74

XSEDE

2013 Recommendation: Maintain detailed FTE assignments, coordinate with local supervisors, and regularly recognize outstanding work.

2014-2015 XSEDE Response: Detailed FTE assignments included in PY5 and XSEDE2.0 planning budgets. Internal newsletter highlights of staff work.

Climate Study Results

Survey Item	Mean 2013	Mean 2014	Mean 2015
Q7A. I am satisfied with the balance between my work for XSEDE and my work on other projects.	3.33*	3.54	3.59*
Q7D. I am satisfied with how my program area is managed.	3.57**	3.75	3.93**

Scale: Strongly Disagree (1) to Strongly Agree (5)

* $p < .05$, ** $p < .01$, *** $p < .001$

"I work for an XSEDE partner. I feel that my interactions with XSEDE staff are very good."

"...Perhaps there should be annual performance reviews, and the Level 3's could shift funds between people and institutions based on who is actually delivering."

Range of comparable projects 2.83 to 3.74

XSEDE

2013 Recommendation: Establish explicit procedures including time limits for XSEDE decision making.

2014-2015 XSEDE Response: Expanded communication & decision making dimension in 2014 Climate Study and again in 2015. All hands meetings implemented at sites. Retirement of projects lacking desired outcomes.

Climate Study Results

Survey Item	Mean 2013	Mean 2014	Mean 2015
Q3A. XSEDE's decision making process is efficient.	-	2.93	2.96
Q3B. I understand how decisions are made within the organization.	-	-	3.04
Q3C. I have input in decision making that relates to my work.	-	-	3.77
Q3D. When decisions are made, they are effectively communicated back to me.	-	-	3.55

“Communication during and after decision making by senior leadership is better than before, but overall still not nearly good enough...However, I have confidence that the senior leadership is addressing this problem and headed in the right direction.”

Scale: Strongly Disagree (1) to Strongly Agree (5)

Range of comparable projects 2.83 – 3.74

2014 Recommendation: Conduct deeper investigations of organizational climate as it relates to equity with staff from all groups.

2014-2015 XSEDE Response: Expanded equity dimension in 2015 Climate Study. Diversity speaker at June 2015 quarterly meeting.

Climate Study Results

Survey Item	Mean 2013	Mean 2014	Mean 2015
Q2b. I feel that XSEDE staff treat each other equally regardless of gender.	-	4.41	4.38
Q9. How often do you experience discrimination by other XSEDE staff?†	-	4.83	4.80

“I'm sure that there is unconscious bias like with any human enterprise. I haven't personally seen anything I could point to as a clear case of discrimination, but different people can interpret the same event differently.”

Scale: Strongly Disagree (1) to Strongly Agree (5)

†Note Q9 has been reverse coded as 1 (Almost Always) to 5 (Never).

Range of comparable projects not available

Pilot TEOS Area Metrics Tableau Dashboard Demonstration

Lizanne DeStefano, lizanne.destefano@ceismc.gatech.edu

Lorna Rivera, lirivera@Illinois.edu

XSEDE

Extreme Science and Engineering
Discovery Environment

XSEDE has a complex system of KPIs and area metrics

- Dashboard was developed to provide real time access to metrics for L1, L2, and L3 and program managers.
 - Easy quarterly and annual reporting
 - Consistent definitions and data pulls
 - Promotes longitudinal analysis
 - Better understand user base
 - Promote data based decision-making and transparency

Michael Culbertson, I-STEM, UIUC

XSEDE

Extreme Science and Engineering
Discovery Environment

Logic Models represent intended program operation

- Make program components and processes explicit
- Identify different understandings and promote consensus
- Clarify points for intervention and evaluation

Allocations are an important metric in XSEDE

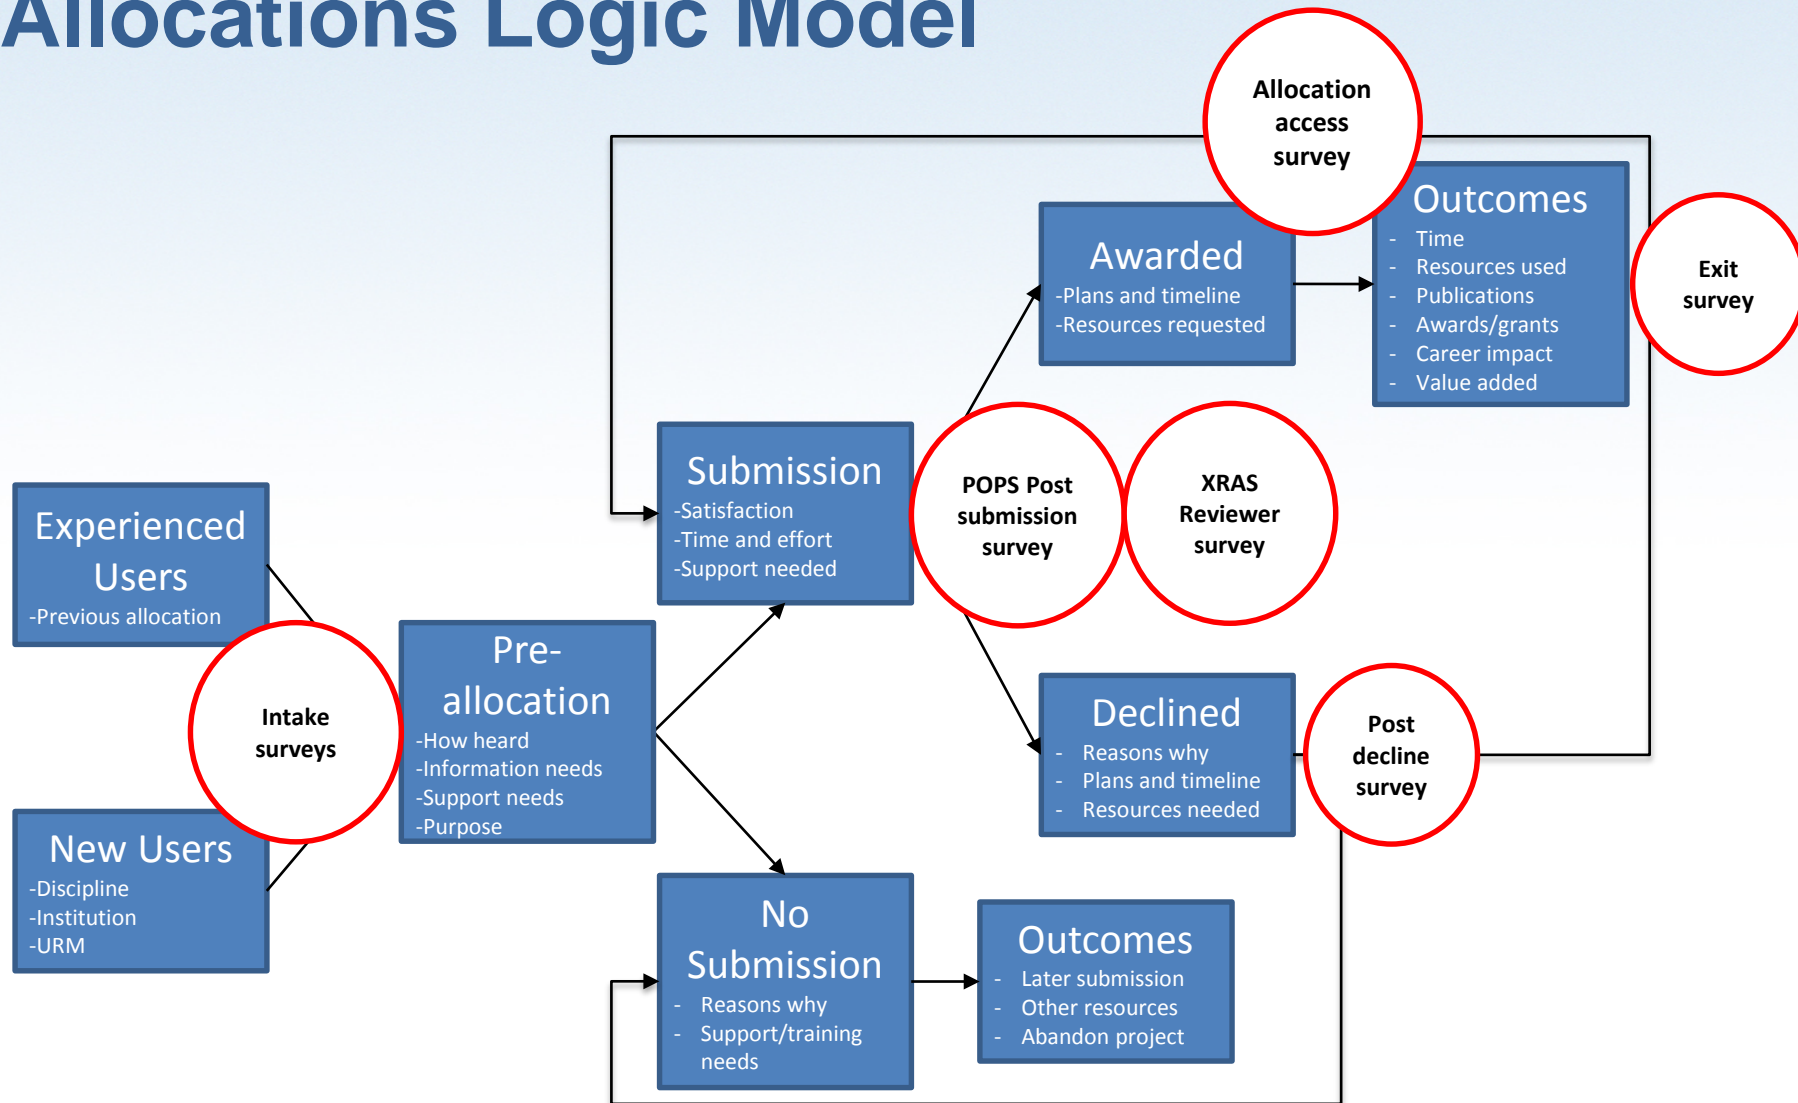

Figure 1. Training Registrants as of February 2013

Allocations Logic Model

Surveys

Table 1. Survey suite related to allocations

Items on...	Intake	POPS Post Submission	XRAS Reviewer	Allocation Access	Exit	Declined

Discussion

- Are the annual Climate Study and other strategies useful for promoting continuous improvement and a positive working environment within XSEDE?
- Are these findings useful or applicable to other large NSF investments?
 - Communication & decision making in virtual organizations
 - New staff orientation needs
 - Less than .50 FTE

Discussion
