

2022 RESEARCH INFRASTRUCTURE WORKSHOP

Cyberinfrastructure Workshop

Ewa Deelman

University of
Southern
California
CI Compass, PI

Anirban Mandal

RENCI
CI Compass, Co-PI

Angela Murillo

Indiana University
CI Compass, Co-PI

Kerk Kee

Texas Tech
University
CI Compass, Sr.
Personnel

Nicole Virdone

University of
Southern California
CI Compass,
Project Manager

Ciji Davis

University of
Southern California
CI Compass,
Project Specialist

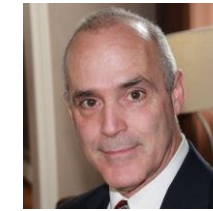

Thank you to our Panelists !

Panel 1: Guiding principles and best data practices for large-scale data management and dissemination: Challenges and Opportunities

- Giri Prakash, Oak Ridge National Laboratory (ORNL)
- Jeffrey Glatstein, Woods Hole Oceanographic Institution (WHOI)
- Chris Bontempi, Network for Advanced NMR (NAN)
- Christine Laney, National Ecological Observatory Network (NEON)

Giri Prakash

Jeffrey
Glatstein

Chris Bontempi

Christine Laney

Panel 2: Cyberinfrastructure Training: Challenges and Opportunities

- Brian Dobbins, National Center for Atmospheric Research (NCAR)
- Dan Stanzione, Texas Advanced Computing Center (TACC)
- Margaret Levenstein, Research Data Ecosystem (RDE)
- Ana Hunsinger, Internet2 and MS-CC co-chair

Brian Dobbins

Dan
StanzioneMargaret
Levenstein

Ana Hunsinger

Thank you to NSF !

Roland Roberts, Deputy Chief Officer for Research Facilities, NSF

Matthew Hawkins, Head, Large Facilities Office, Office of Budget, Finance, and Award Management, NSF

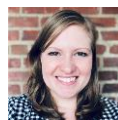

Richard Oram, Large Facilities Advisor, LFO, NSF

Gabrielle Perez, Program Specialist, DMG

Allison Kennedy, Program Manager, DMG

Andrea Popp, Senior Event Manager, DMG

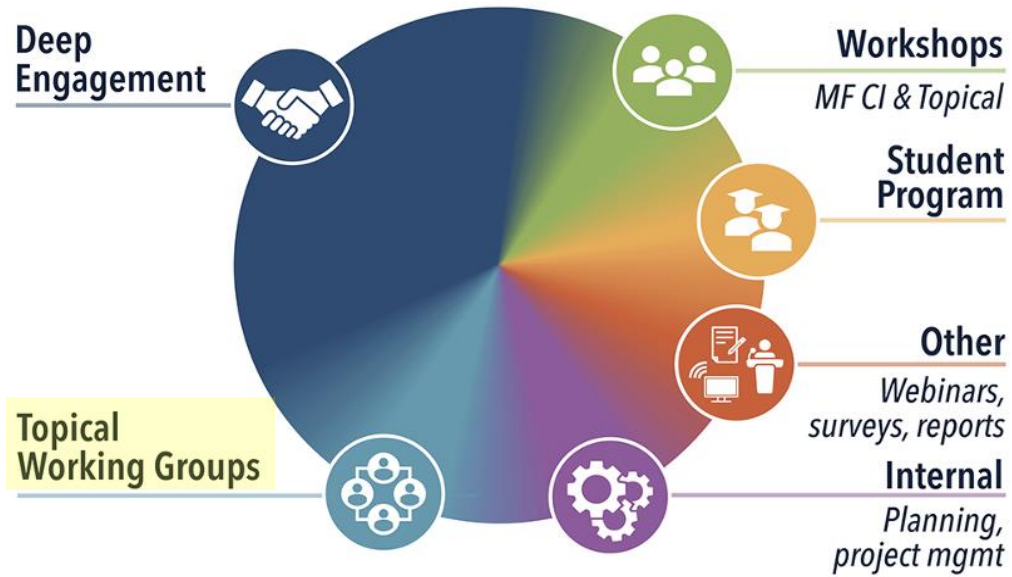

Ethan Swanson, Program Manager, DMG

Big thanks to people joining in-person and online!

**Thank you to the CI Compass Organizers for organizing the
Cyber Infrastructure Specialty Workshop**

Continue the Conversation in CI Compass Topical WGs

FAIR Data Topical WG

- Understand the current practices and needs of FAIR implementation by MFs
- Research current and emerging FAIR data practices and implementation
- Organize guest speakers regarding FAIR
- Disseminate research regarding FAIR data practices and implementation

Cloud Infrastructure Topical WG

- Understand the current practices for clouds used by MFs
- Research alternative solutions and keep up to date with emerging cloud technologies
- Develop a general set of best practices that can inform the MFs

Send email to contact@ci-compass.org to participate in any of these or future Topical Working Groups

Post-workshop activities/materials

We will author a “Meeting Summary” and make it available on the CI Compass website, summarizing the findings and recommendations from this workshop.

All presentation materials will be available on the CI Compass website <http://ci-compass.org>

**Specialty Workshop
Session on
Cyberinfrastructure,
Friday, September 16, 2022**

8 AM - 8:05 AM	Opening	Ewa Deelman, USC
8:05 AM - 8:40 AM	NSF Welcome Keynote <ul style="list-style-type: none"> Roland Roberts, NSF, Deputy Chief Officer for Research Facilities Matt Hawkins, Head, Large Facilities Office 	
8:40 AM - 10 AM	Panel: Guiding principles and best data practices for large-scale data management and dissemination: Challenges and Opportunities <ul style="list-style-type: none"> Giri Prakash, Oak Ridge National Laboratory (ORNL) Jeffrey Glatstein, Woods Hole Oceanographic Institution (WHOI) Chris Bontempi, Network for Advanced NMR (NAN) Christine Laney, National Ecological Observatory Network (NEON) 	Lead: Angela Murillo, IU
10 AM - 10:30 AM	Break	
10:30 AM - 11:50 AM	Panel: Cyberinfrastructure Training: Challenges and Opportunities <ul style="list-style-type: none"> Brian Dobbins, National Center for Atmospheric Research (NCAR) Tim Cockerill, Texas Advanced Computing Center (TACC) Margaret Levenstein, Research Data Ecosystem (RDE) Ana Hunsinger, Internet2 and MS-CC co-chair 	Lead: Kerk Kee, Texas Tech
11:50 AM - 12 PM	Closing	Anirban Mandal, RENC
